Otley Integrated Hybrid Mattress - A Pumpless Air Mattress Option

The Otley Integrated Hybrid Mattress is a unique full mattress replacement system. The Otley combines the benefits of high quality foam and air technology to aid in the prevention of pressure injuries.

Flexible to the client's clinical needs, the Otley can be used in three ways for pressure reduction or pressure relief as required:

- 1) High specification foam mattress
- 2) Pumpless air mattress (with unique static care comfort regulator)
- 3) Dynamic alternating air mattress (with pump)

The Otley is ideal for community care or facility use. The simple set up requires minimal training to use. Where required a client can remain on the mattress prior to attaching the optional pump.

- Suitable for at risk to very high risk clients
- 14 air cells with foam inserts and static foam head cell
- Quick release CPR valve
- HF-welded Dartex vapour permeable and waterproof cover
- Audible/visual power loss and low/high-pressure pump alarm
- Made in the UK

PRODUCT CODE : SINGLE SMMFHO91

Overall Length:	199cm	SWL:	250kg with pump
Overall Width:	90cm		190kg with static care comfort regulator
